Food's Never Been Easier

AGENDA

1. Vision

2. Problem statement

3. Solution

4. Team & Advisors

5. How it works

6. Market

7. Business Model

8. KPIs & Traction

9. Competition

10. Go-to-Market

11. Roadmap

12. Financial

13. Financing

Meet Jia Wei

- 29 years old
- Financial consultant
- Works in Singapore's CBD
- Juggles meetings, client calls, tight deadlines
- Has a 1 hour lunch break
- Just wants to eat and rest his mind
- Views meals as a functional habit
- Often orders in lunch

What's the challenge? Why does it matter?

Decision Paralysis

What if you never had to
decide what to eat again?

contact us via:

A man with glasses is smiling while eating a bowl of noodles with chopsticks. The background is slightly blurred, showing an indoor setting with plants and a window. The text is overlaid on the image, with some words in orange and some in white.

Fudo is creating a **new category** of food
tech — one that brings back **delight**,
surprise and **efficiency** into eating

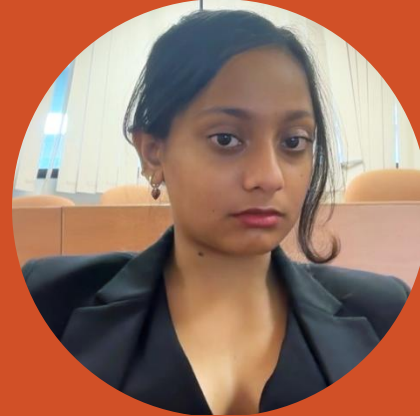

OUR TEAM

Experience in Computer Science,
Social media marketing

ADVISOR

Victor Ng

Adjunct Lecturer
(Entrepreneurship and Fintech),
National University of Singapore,
School of Computing

- **Over 15 years of experience in venture capital, private equity and startups**
- **NUS School of Computing Innovation and Enterprise Committee**
- **Global experience investing in early-stage startups**

The Problem

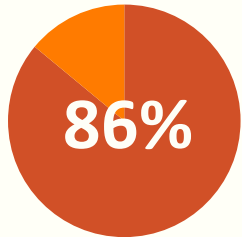

Too many options

Overwhelmed

Waste time deciding

Food decision fatigue

of Gen Z experience “menu anxiety” when ordering food

Why it’s so painful

- Mental overload
- Overwhelmed, anxious, stressed

“Especially after a long or hectic day, I have the feeling that I can’t possibly make one more decision”
— Emily Zicherman

Current attempts at solving

Food delivery apps

- + Removes some decisions
- + Saves time and effort of travelling

But it doesn't effectively address the root of the pain...

Current food delivery platforms **aren't built to help users decide**

-> designed to show **everything**

Choice overload in food delivery apps can lead to decision paralysis

Reduces the speed of decision making

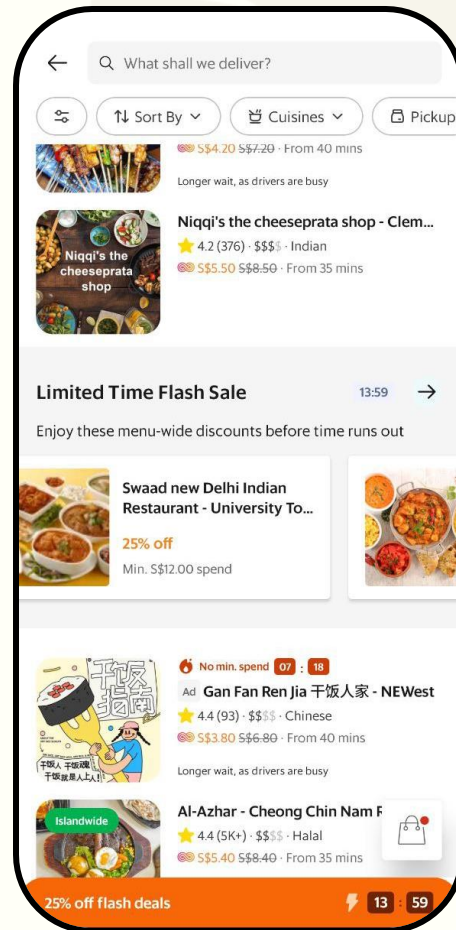

Extra time

More mental energy

Delivery fee

Current attempts at solving

Following tips from experts

- Reduce number of choices ideally to only 2
-> e.g. tell yourself you'll only pick between
the first 2 items you see
- Commit to your first choice
- Stick to your habits

Mental energy
to hold yourself accountable

Boring, get sick of it

We offer a quick, easy solution:

FUDO

A roulette-style food ordering experience

Our Solution

Fudo cuts the fuss and makes the decision *for you*

1. **Input** your dietary requirements and budget when you **first download** the app
2. **Tap a spin button** and **instantaneously** get one curated meal option from a partner restaurant
3. **Order and pay** for it with numerous **discount** options **right away** in-app

In fact, Fudo Premium can automate step 2 and 3 for you daily!

No more
staring at a
wall of options

No more wasting
time scrolling
endlessly

No more stress
during your
lunch break

Food decision fatigue

Fudo's spin to choose concept

- Takes the pressure off choosing and sticking to your choice
- Saves time so you can fully utilize your break from your stressful schedule
- Adds a bit of thrill to the mundane

With deep discounts made possible with our early order options

Here's how it works

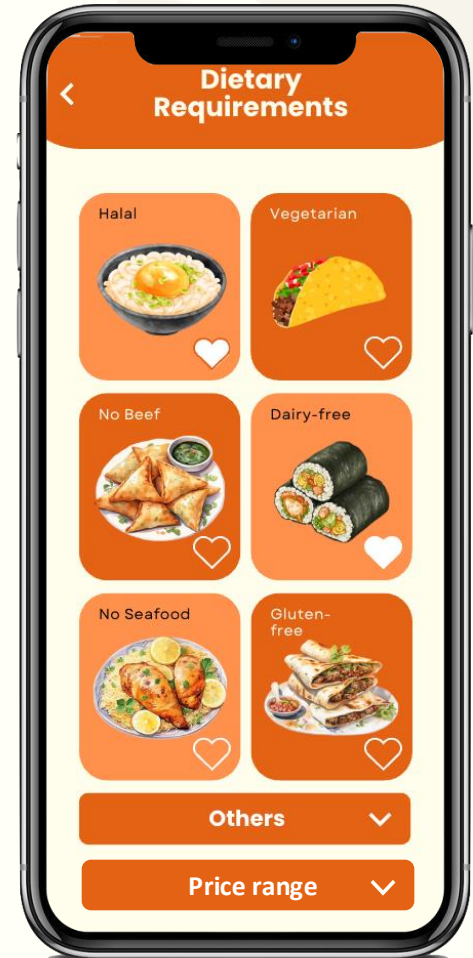

Initial input when onboarding

Select dietary requirements, likes, dislikes,
and price range during onboarding

Fudo remembers these preferences in every spin

- After onboarding users can update their requirements at any time using the dietary requirements page
- Fudo shows most common requirements as cards for easy selection. Other requirements can be selected in the dropdown menu

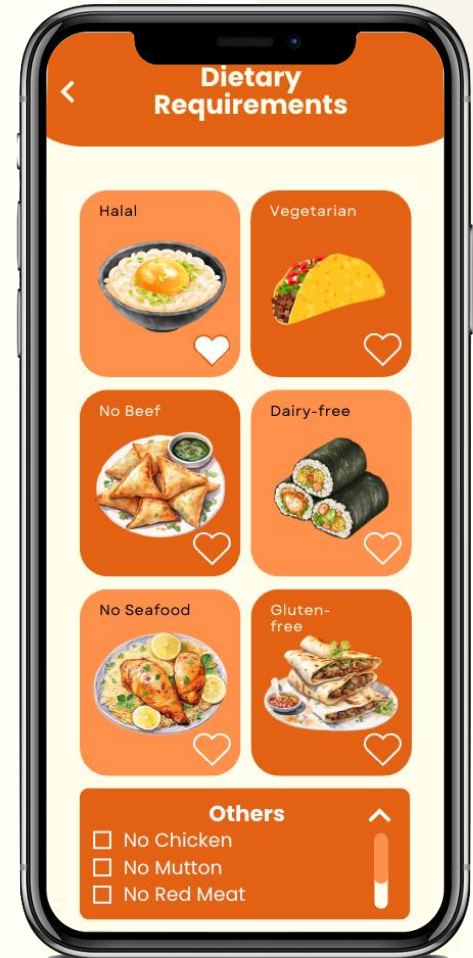

Initial input when onboarding

Select dietary requirements, likes, dislikes,
and price range during onboarding

Fudo remembers these preferences in every spin

- After onboarding users can update their requirements at any time using the dietary requirements page
- Fudo shows most common requirements as cards for easy selection. Other requirements can be selected in the dropdown menu

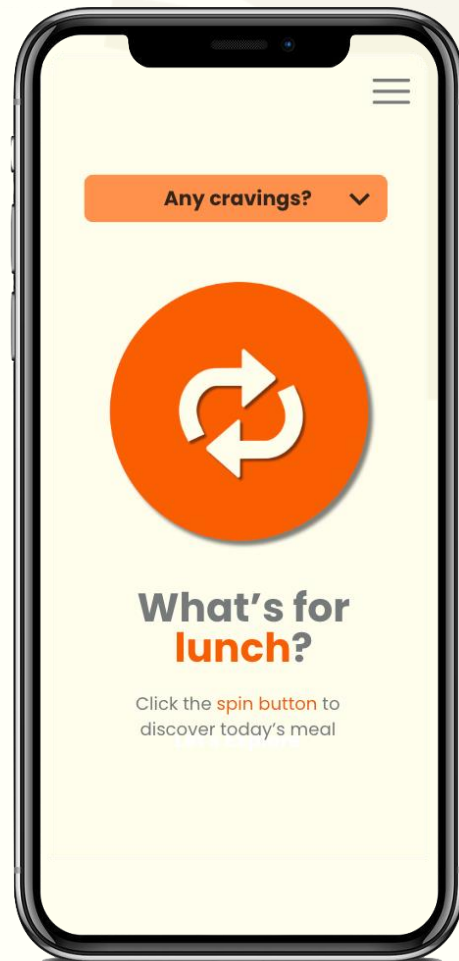

Spin button

Click to get your one curated meal

Opens immediately on logging in,
clean, simple, straightforward

- Can select any cravings using the dropdown menu
- Based on your regular dietary requirements, price range and any current cravings, Fudo selects a random dish from a partner restaurant
- Fudo's partners are carefully picked to guarantee the best quality food in every spin, every day

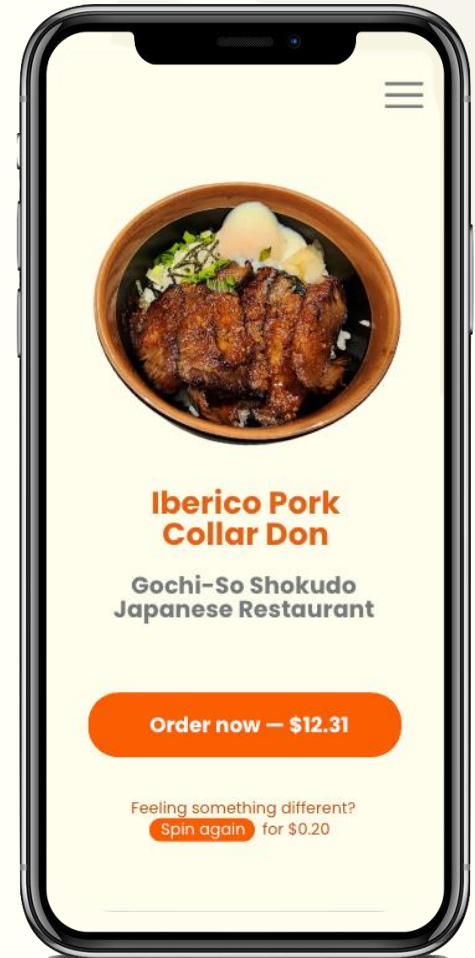

Your recommendation

Given one meal recommendation

Easily order it right away through the app

- Shown the dish and the restaurant so user is can remember it if the food us good the restaurant also gains more publicity
- Can spin again to get another recommendation (1-2 free depending on subscription plan, then \$0.20 for further spins)
 - > discourage decision paralysis from too much spinning

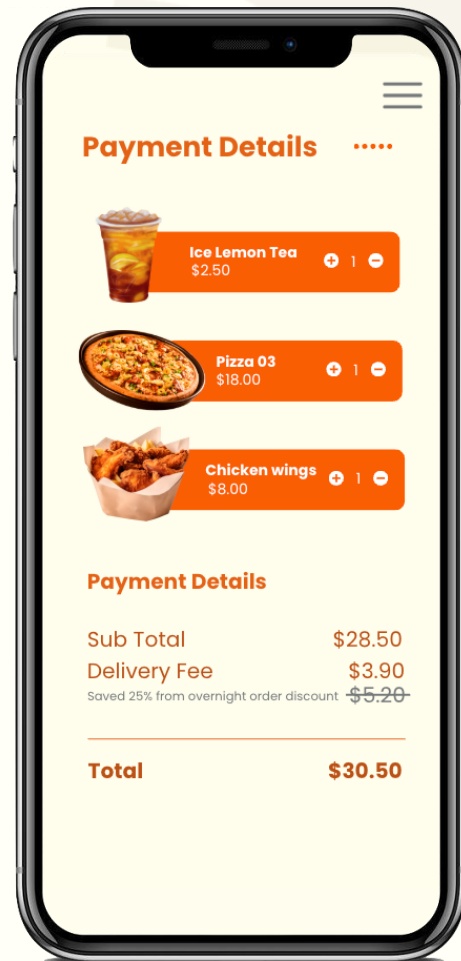

Payment amount

Details and breakdown of order

Extra details to show how much was saved due to order time-based discounts

- ➔ Affirms the customer's decision to pre-order and incentivizes the behaviour to continue ordering early every day

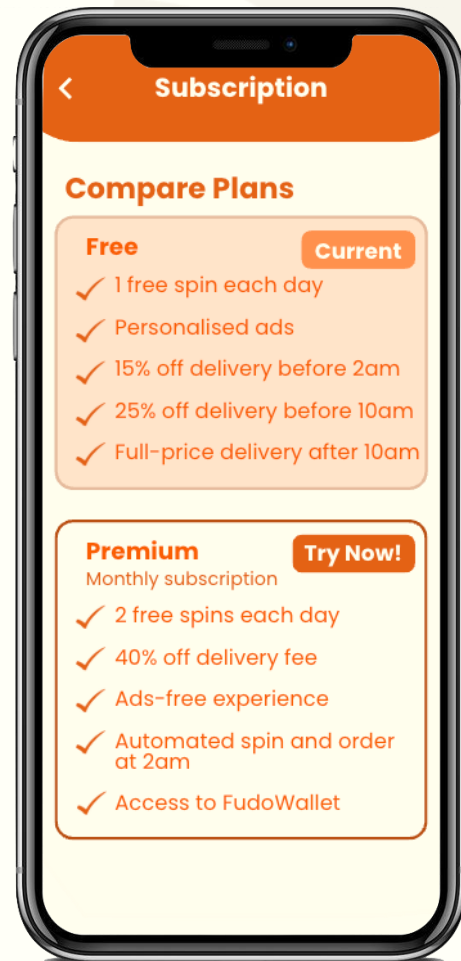

Subscription plans

Why get premium?

Save more through Fudo without even having to open the app

Automated spin and order at 2am before each working day

- ➔ Settle your lunch plan without needing to spend any time on it
- ➔ Never miss the highest discount which is before 2am
- ➔ Access to FudoWallet to enable smoother transactions and auto deductions

FudoWallet

Deposit money for smoother transactions

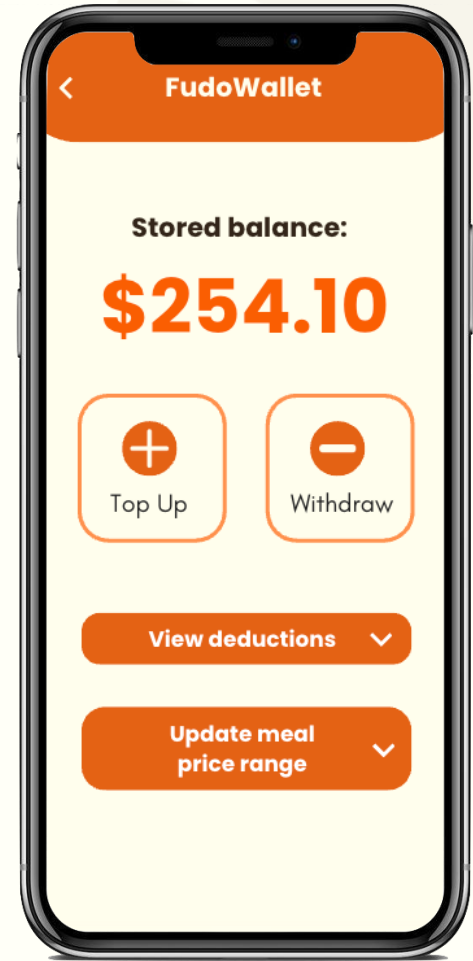

Available only to premium subscribers

Enables daily auto-orders as money is auto deducted from stored balance

- ➔ Busy user only needs to open the app to top up this amount. All other ordering related tasks are handled by Fudo

Track how much you spend on meals and what exactly you've spent it on

- ➔ Easily update your meal price range here to better suite any updates in your budget

TAM: Total Addressable Market

Global online meal delivery

- Value: USD 455.7 Billion in 2025
- Estimated CAGR*: 4% (2025 - 2030)
- Projected: USD 554.43 Billion in 2030

SAM: Serviceable Available Market

Regional online food delivery

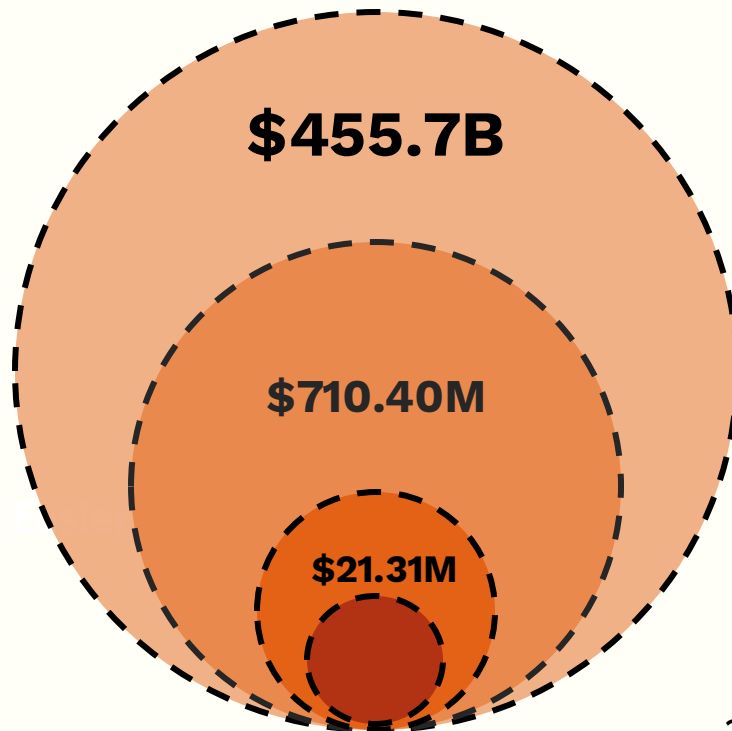

- Value: USD 44.75 Billion in 2025
- Estimated CAGR*: 11.15% (2025 - 2030)
- Projected: USD 68.29 Billion in 2030

SOM: Serviceable Obtainable Market

Estimated capture of online food delivery

- Conservative estimate (1%): USD 447.5 Million
- Moderate estimate (3%): USD 1.34 Billion
- Optimistic estimate (5%): USD 2.24 Billion

Market

So where do we stand?

**1% of SAM:
13.4 Million**

*Meal delivery for working professionals in
Singapore's CBD – But Why?*

- Frequented by **12.9%** of Singapore's workforce (i.e. **284,000** individuals)
- Willingness to pay for **convenience** & **speed**
- Repeat orders - **frequent** ordering habits
- **Tech-savvy** segment of population

Food's Never Been Easier

*Concentrated user acquisition to validate our business model quickly,
placing value on a consistent & reliable userbase*

Business Model

Subscription plan

- Premium access to guaranteed discounts
- Access to FudoWallet top-up system
- Ads-free experience

Affiliate Commissions

- We earn \$0.10 for each meal ordered through the app

Ad Revenue

- Personalized, non-disruptive ads that align with user preferences
- Promote only eateries for a win-win situation

Business Model

Delivery Fees

- Users are incentivized to order early, using tiered discounts (up to 40% off delivery)
- Highly selective partnering with restaurants per cuisine allows fewer batches
- Allows us to batch meals with partner eateries and
- Optimize delivery routes with our logistics partner
- Improve efficiency & drive down overall costs at once

A large, mature tree with a dense canopy of green leaves stands in the center of a grassy field. The background features rolling green hills under a soft, overcast sky. The text is overlaid on the tree's canopy.

Big growth starts small.

**Fudo's roots are strong & its
branches are ready to spread.**

The Proof? Our KPIS

■ Number of Monthly Transactions:

- Directly proportional to revenue segments due to commission
- Indicative of potential increase in Subscription Conversion Rates

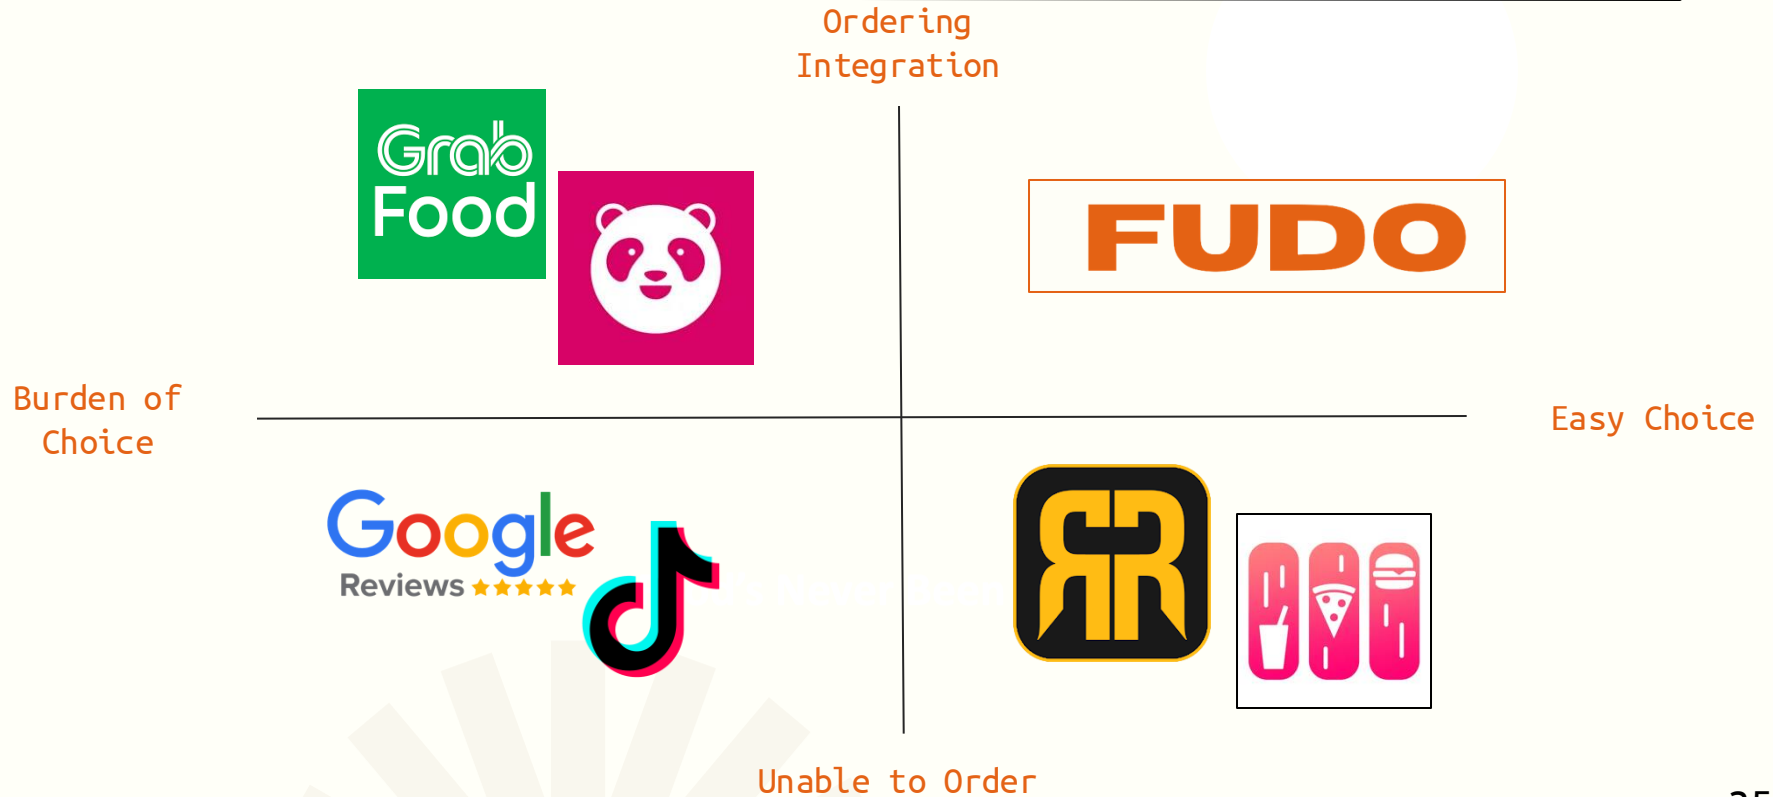

■ Spin-to-order Conversion Rate:

- Measurement of how successfully the UX leads user from decision to purchase
- Directly proportional to commissions

■ Subscription Conversion Rate:

- Measurement of growth of a committed & guaranteed userbase
- Indicates long-term revenue potential of Fudo

At a glance...

But more than that...

FUDO

Those who struggle to make decision
every single day

→ lead busy lives

options

rt

Traditional Food Delivery Platforms

Aims to show many options

→ choice overload

→ no decision support

Food's Never Been Easier

Who are we targeting?

Indecisive food delivery customers,
especially **working professionals** who
treat food as a **functional habit** rather
than an experience

The logo for FUDO is displayed in a large, bold, orange sans-serif font. The letters are thick and rounded, with the 'F' and 'U' being particularly prominent. The logo is centered within a white rectangular box that has a thin orange border. In the background of the slide, there are faint, stylized sunburst or fan-like graphics in a light beige color, one in the top right and one in the bottom left.

Food's Never

How are we targeting them?

- Focus on **virality**, low-CAC strategy
- Influencer partnerships
- Referral codes & discounts
- Physical advertisements in partner eateries

What are our assumptions? How do we know they're valid?

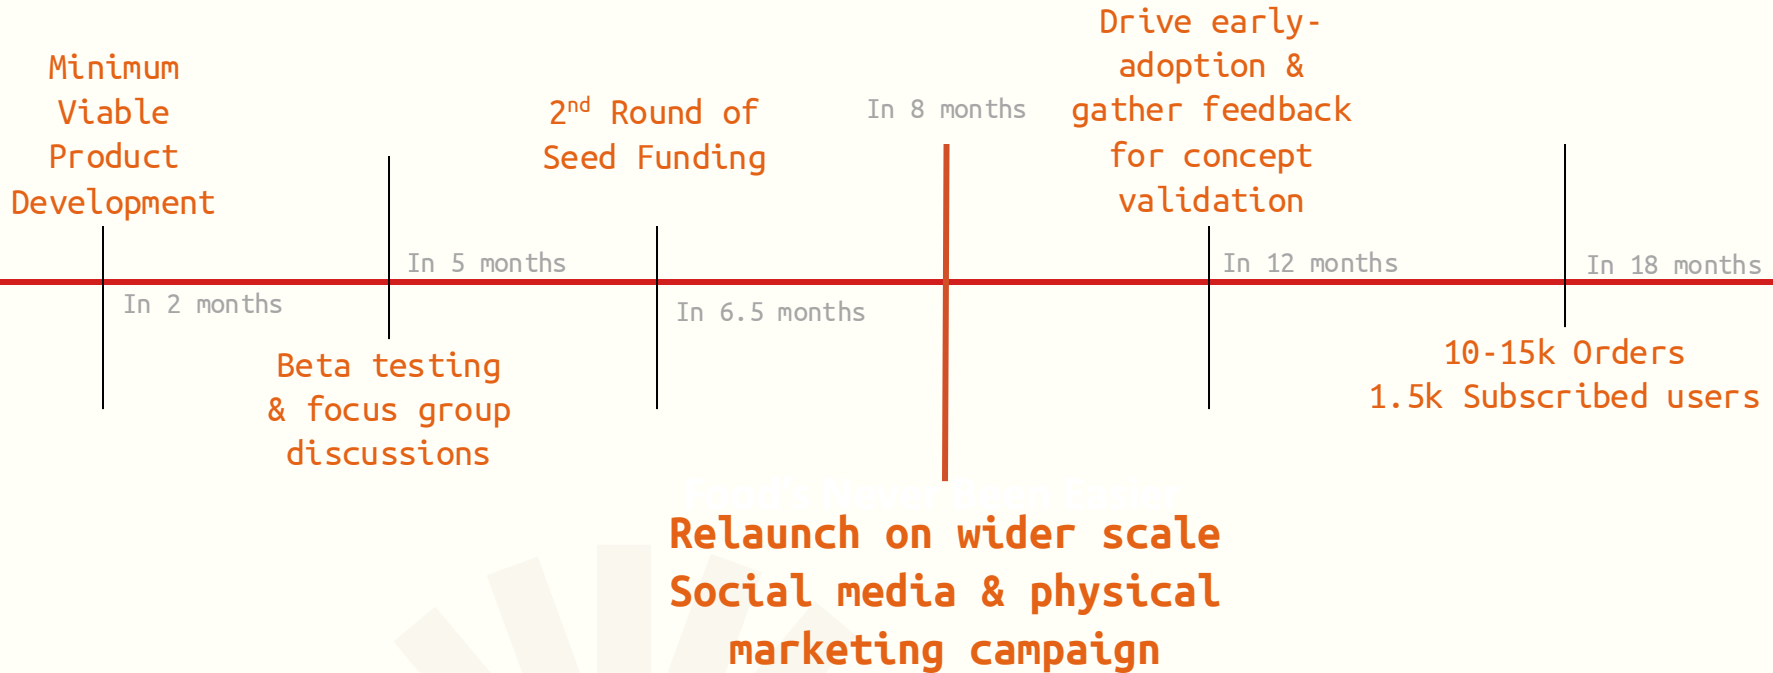

1. Users experience real decision fatigue when ordering food
2. Users are open to surprises
3. Restaurants seek low-cost visibility alternatives

FUDO

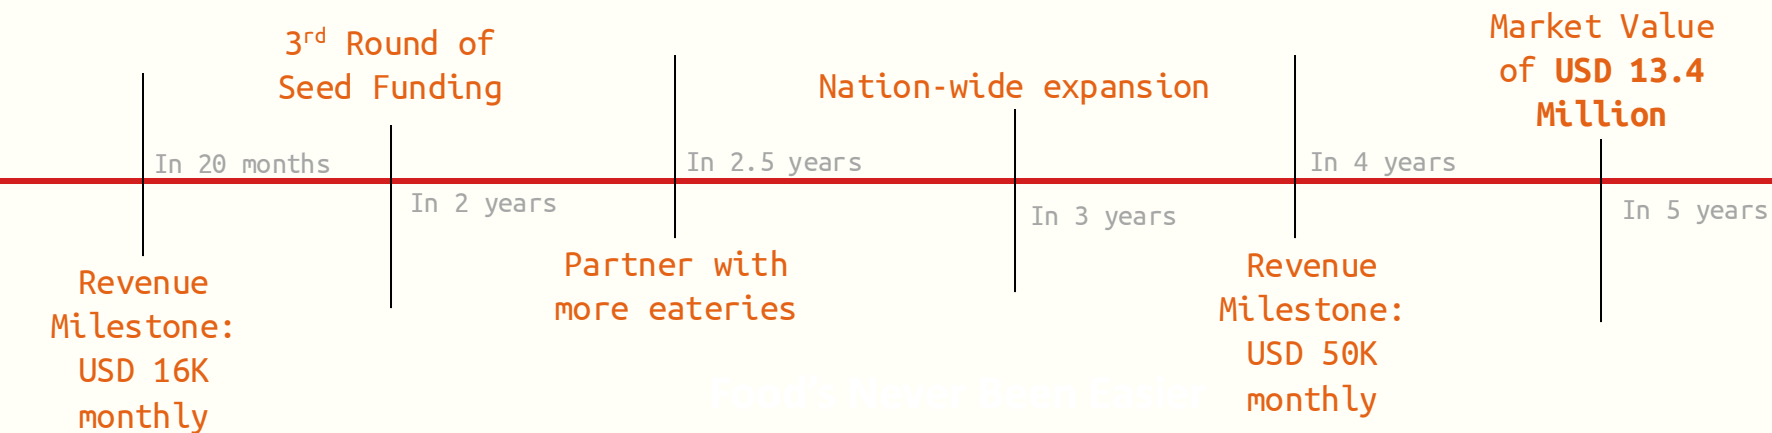

How do we know it's worth solving?

- Rising decision fatigue from too many food choices
- Shift toward AI-curated experiences (e.g. Spotify)
- High food delivery rates in urban hubs like Singapore
- Consumer openness to subscription-based, habit-forming apps

Milestones

Milestones

Estimated finances – Year 1

Summary		Q1	Q2	Q3	Y1
Revenue		0	3, 500	9,000	53,500
COGS		1,000	8,500	13,500	32,500
Gross Margin		(1,000)	(-4,500)	(-4,500)	(-21,000)
)					
Beginning Cash Balance		1,000	20,000	403,300	403,300
Ending Cash Balance		20, 000	403,300	482,500	
Burn Rate (Quarterly)		(5,000)	(10,000)	(12,000)	(35,000)
Total Headcount		2	6	6	8-10

Estimated finances – Year 3 & 5

Summary		Year 3	Year 5
Annual Revenue		500,000	2,200,000
COGS		275,000	990,000
Gross Margin		225,000	1,210,000
Beginning Cash Balance		300,000	400,000
Ending Cash Balance		200,000	1,200,000
Burn Rate (Annual)		(300,000)	(10,000)
Total Headcount		25-30	~50

Financing

What we will do with the \$10000 VIP grant

■ Key hires

- 1-2 AI developers in order to refine our dietary preference based recommendations
- Quality Assurance interns

■ Product improvements

- Restaurant promotions built into the spin experience
- Rating of recommended food after ordering and eating, increase likelihood of other food from same restaurant being recommended

Next round of seed funding: 6-7 Months Later

- Still seed funding stage
- Pre-product launch

■ Next round of seed funding: 6-7 Months Later

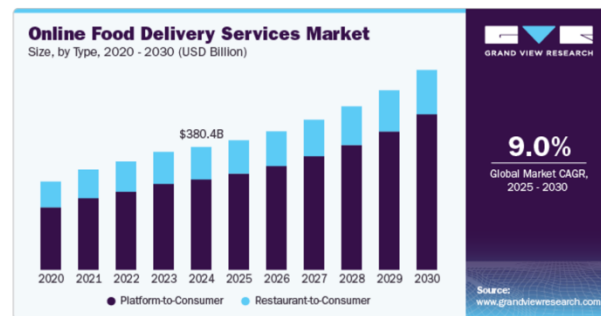

- Still seed funding stage
- Pre-product launch

Thank you

Market - Appendix

How we calculated TAM: Total Addressable Market

- Global Online Food Delivery Market size was valued at **USD 215.47 billion in 2023** and is poised to grow from **USD 237.23 billion in 2024** to **USD 512.24 billion by 2032**, growing at a **CAGR of 10.1% during the forecast period (2025-2032)**. ([Skyquest](#), March 2025)
- The global online food delivery services market size was estimated at **USD 380.43 billion in 2024** and is projected to grow at a **CAGR of 9.0% from 2025 to 2030**. ([Grand View Research](#), 2024)
- Revenue in the Meal Delivery market is projected to reach **US\$455.70bn in 2025**. Revenue is expected to show an annual growth rate (**CAGR 2025-2029**) of **2.70%**, resulting in a projected market volume of **US\$507.00m by 2029**. ([Statista](#), 2024)
- Hence, to account for such differing values across the board, we adopted the conservative yet optimistic estimates below:
- Value: USD 455.7 Billion in 2025
- Estimated CAGR*: 4% (2025 - 2030)
- Projected USD 554.43 Billion in 2030

Market - Appendix

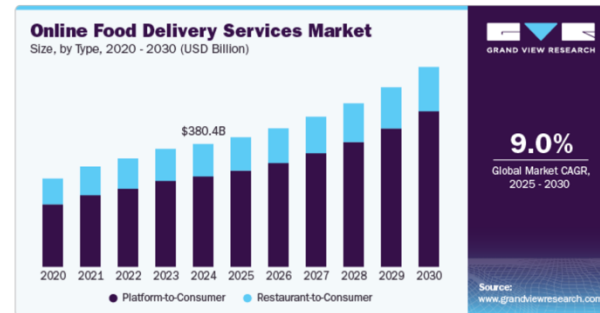

How we calculated SAM: Serviceable Available Market

- Revenue in the Online Food Delivery market is projected to reach US\$44.75bn in 2025. Revenue is expected to show an annual growth rate (CAGR 2025-2029) of 11.15%, resulting in a projected market volume of US\$68.29bn by 2029. ([Statista](#), 2024)
- Hence, we adopted the conservative yet optimistic estimates below:
- Value: USD 44.75 Billion in 2025
- Estimated CAGR*: 11.15% (2025 - 2030)
- Projected: USD 68.29 Billion in 2030

Market - Appendix

How we calculated SOM: Serviceable Obtainable Market

- As of May 2022, GrabFood, the meal delivery arm of Singaporean super-app Grab, held a **56 percent market share**, followed by Foodpanda and Deliveroo. ([Statista](#), 2024)
- As of end 2023, **Grab is estimated to account for 55.0% or US\$9.4B of the region's food delivery GMV**, a 6.8% increase from the year before. Foodpanda and Gojek are estimated to contribute **15.8% (US\$2.7B) and 10.5% (US\$1.8B)** of the region's GMV, a **12.9% and 10.0% YoY decline** respectively. ([Momentum](#), 2023)
- Hence, we adopted the conservative yet optimistic estimates below:
- Conservative estimate (1%): USD 8.43 Million
- **Moderate estimate (3%): USD 25.29 Million**
- Optimistic estimate (5%): USD 42.15 Million
