EDUCATION

National University of Singapore

Aug 2023 - May 2027

Bachelor of Computing in Computer Science & NUS College Honors Program

- Focus area in Software Engineering and AI
- Awarded the NUS Merit Scholarship
- Global Experience course (GEx) in Toronto

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C, C#, Javascript, HTML, CSS
- **Frameworks & Libraries:** Next.js, React, React Native, JavaFX
- **Design & Development Tools:** Figma, Unity, Adobe Photoshop, Blender
- **Core Concepts:** Data Structures and Algorithms, Software Engineering, Schema Design, Object-Oriented Programming (OOP), Machine Learning foundations, Game Development, Computer Organisation

PROJECT EXPERIENCE

Frontend Developer, Surf Or Pay Website

Jan 2025 – Present

Hack&Roll 2025 Hackathon

- Engineered a dynamic task-tracking dashboard with monetary forfeits, targeting 40% improvement in accountability and deadline monitoring efficiency.
- Built and deployed a functional prototype in 24 hours, receiving 80% positive feedback from judges.

Full-Stack Developer, Pocket Explorer App,

Mar 2024 – Present

NUS Independent Software Development Project (Orbital)

- Produced an informative mobile game targeted to increase appreciation of local wildlife by 30%.
- Designed UI of the application to ensure a seamless user experience across all 5 in-game locations.
- Presented product to over 100 attendees, securing the Apollo 11 (Advanced Level) certification.

Full-Stack Developer, ResearchRoster,

Sep 2024 - Nov 2024

Software Engineering Team Project, Grade: A

- Created a desktop application for efficient research study participant management using Java and JavaFX, projecting 40% increased user satisfaction compared to current solutions.
- Collaborated in an agile team, executing 10+ weekly sprints to ensure 100% on-time delivery.

UI/UX Designer, Vet App (Early-Stage Startup)

Feb 2025 - Present

- Conducted in-depth market research on 10+ competitor platforms to inform UI/UX decisions.
- Developed wireframes and prototypes based on insights from competitor analysis, reducing estimated navigation time by 30% by enhancing interface intuitiveness.

INTERNSHIP & WORK EXPERIENCE

Engineering Intern, Republic of Singapore Air Force, Singapore

Dec 2020 - Dec 2020

- Applied Fault Tree Analysis to solve theoretical aircraft problems in 60% of time allocated.
- Presented concise findings to over 50 participants, developing deeper project comprehension.

Freelance Graphic Designer, Various private entities, Singapore

Jan 2021 - Dec 2023

- Produced high-fidelity designs tailored to each client, attaining 90% customer satisfaction.
- Advised uncertain clients on market research based design strategies, boosting confidence by 70%.

EXTRACURRICULAR & LEADERSHIP EXPERIENCE

Learning Mentor for =Dreams, Project Dreams

Jun 2024 - Present

- Designed and kick-started the Learning Mentor Program at =Dreams for underprivileged students, improving students' behaviour and attentiveness during lessons by 40% .
- Expanded program by successfully training and onboarding 6 new trainees for our pilot run.

Vice-Chairperson, Visual Arts Club

Jun 2020 - Jul 2021

- Organized 50+ CCA sessions, increasing member engagement and learning by 30%.
- Initiated 5+ projects, collaborating with external organizations to expand outreach by 40%.
